**Course Description:** Human trafficking is modern-day slavery and involves the use of force, fraud, or coercion to obtain some type of labor or commercial sex act. Every year, millions of men, women, and children are trafficked in countries around the world, including the United States. It is estimated that human trafficking generates many billions of dollars of profit per year, second only to drug trafficking as the most profitable form of transnational crime (Department of Homeland Security, 2016). According to the United Nations Office on Drugs and Crime, the most common form of human trafficking is sexual exploitation (79% of trafficking), mostly involving woman and girls.

This course will discuss the global problem of sex trafficking of women /children and strategies to assist victims both locally and globally. Locally, Indiana received a poor rating for assistance for human trafficking victims, as compared to other states (The Polaris Project, 2014). Sari Bari (Saribari.com) is an Indiana-based non-profit organization providing services to women in Kolkata, India to help them exit the sex trade and build economic self-sufficiency. India has a flourishing sex trafficking trade and thousands of women are in brothels against their will. Kolkata, India is a prime destination for sex traffickers who subject women and children to forced prostitution (US Dept. of State Trafficking in Persons Report, 2016).

Students in this course will gain first-hand knowledge of strategies to combat the sex-trafficking of women and children both in Indiana and in Kolkata through a variety of methods: reading books, interacting with local speakers in Indiana and India, understanding the mission and strategies of Sari Bari as well as other NGOs in India, meeting former victims of trafficking who are now working at Sari Bari in India, and assisting Sari Bari with projects that further their mission to empower women who have been trafficked. Students will also have the opportunity to observe, discuss and evaluate strategies for empowerment of victims of sex trafficking.

## Course Objectives

By the end of this course, students will be able to:

1. Develop a deeper understanding of the cultural and economic forces underlying human trafficking and specifically the sex trafficking of women and children
2. Critically examine strategies for empowerment of women who have been trafficked
3. Increase cultural competence to serve and practice in a global community
4. Develop tools for sustainability of funding, in conjunction with Sari Bari
5. Understand local and international policy initiatives to address human trafficking.
